Sequence 01 *Crystal Fossil* (Master's Thesis Project)

Crystal Fossil is my thesis film from graduate school. I experimented with lighting and texturing in Maya. Plants are 2D planes, others are 3D models. (Two of the character's model and rig are done by Melissa Fontanini)

Sequence 02 *Boiler Room* (Lighting & Texturing study)

Lighting and texturing in Maya, rendering using Mental Ray, compositing in After Effects

The models are done by Eric Hanson.

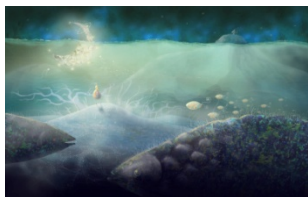

Sequence 03 *Swimming Moon*

Swimming Moon is a short film from my second year at graduate school. 3D contents and hand drawn materials are combined. Lighting and texturing for flowers in Maya, compositing in After Effects, all of 2D images are made in Photoshop (Two 3D flowers are modeled in Maya by Melissa Fontanini)

Sequence 04 *Sinking Moon*

A hand drawn animated short film I made using charcoal and color pencils. 35mm film with oxberry

Sequence 05 *Concept Drawings and Digital Paintings*

Illustrations using pencil and photoshop

Sequence 06 *Life Drawings*

Life drawings using charcoal
